Il progetto degli spazi operativi richiede al contempo efficienza e vivibilità: il sistema componibile assicura la massima resa sia in uffici singoli o multipli, che nei moderni open space, dove nasce anche l'esigenza di una privacy collaborativa tra le persone.

Two essential ingredients in the design of workspaces are efficiency and liveability: the modular system ensures top results in individual or shared offices, as well as in modern open-plan spaces that need to be conducive to collaboration while affording workers privacy.

Un ambiente, più postazioni, differenti spazi operativi. L'ufficio doppio, triplo o quadruplo richiede una particolare attenzione alla distribuzione degli spazi, condivisi o esclusivi. Aumentano le esigenze di organizzazione e di privacy, perché ogni persona possa svolgere al meglio le proprie attività.

One room, multiple stations, a variety of workspaces. A two-, three- or four-person office calls for a special focus on how spaces – both shared and private – are set out. There are more organization and privacy requirements to be met so that each person can perform at their best.

Progettare un'area d'attesa funzionale ma confortevole

Designing a functional yet comfortable waiting area

Gli spazi comuni all'interno di un'organizzazione si distinguono per la ricerca di comfort e funzionalità. Sono zone riservate alla convivialità, ma anche spazi operativi fondamentali, la cui ottimizzazione risulta determinante. Un importante biglietto da visita per l'azienda.

A key factor for common areas within an organization is building comfort and functionality into the design. These are areas that need to have a friendly feel, but are also essential workspaces whose success relies on an optimal layout. An important calling card for the business.

Il layout compositivo privilegia la condivisione e la praticità: gli spazi comuni diventano luoghi di incontro e di confronto, ambienti operativi dove lo studio dell'arredo si basa soprattutto sul quotidiano lavorativo delle persone. Elementi funzionali per un progetto all'insegna del design ergonomico.

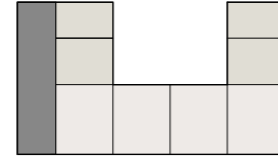

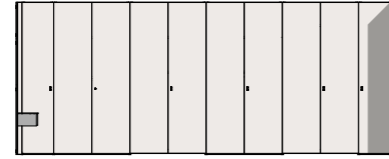

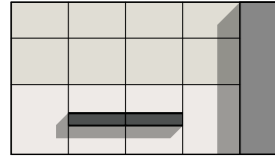

Shared spaces and practicality inform the layout: common areas are turned into places where people can come together and exchange ideas; workspaces where the furniture is designed, above all, to accommodate the occupants' everyday tasks. Functional elements for a design that is all about ergonomics.

Una buona accoglienza significa progettare uno spazio funzionale e confortevole

Creating the perfect area
to welcome guests is all
about designing a functional,
comfortable space

La prima impressione su un albergo si ha dalla zona reception: deve essere elegante e piacevole, ma al tempo stesso molto comoda, per accogliere i visitatori dopo un viaggio. Il banco reception e l'area di attesa si fondono in un progetto studiato per offrire il massimo comfort e servizio.

Guests get their first impression of a hotel from the reception area: it has to be elegant and attractive but, at the same time, supremely comfortable to accommodate weary travellers. The reception desk and waiting area are merged in a layout designed to offer unbeatable comfort and service.

Reception

Reception area

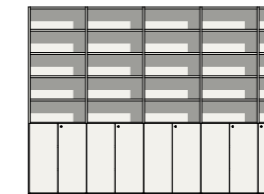

Un ambiente che guarda il quotidiano andirivieni degli ospiti dell'albergo, diventando il sostituto del salotto di casa. Nei grandi alberghi l'esigenza di organizzazione e di praticità della reception accompagna la progettazione di uno spazio all'insegna del comfort.
A space that observes the daily comings and goings of guests, becoming the hotel equivalent of their lounge at home. In large hotels, the need for a reception area that is both organized and practical is accommodated in the design of a space that is also big on comfort.

Funzionalità ed eleganza a misura di punto vendita

Functionality and elegance built for retail

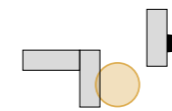

Realizzare un negozio significa soprattutto far coesistere stile e praticità. Grazie alla modularità degli elementi è infatti possibile progettare infinite soluzioni espositive che si integrano in modo perfetto con le aree riservate agli spazi di lavoro.

Il risultato: un ambiente che non passa inosservato.

Fitting out a store means, above all, successfully marrying style and practicality. With the furniture's modular design, you can actually create endless display solutions that blend seamlessly with workspaces.

The result: an interior that is sure to turn heads.

Negozi Store

L'esigenza in un negozio dalle dimensioni contenute, è quella di assicurare lo spazio espositivo per il prodotto, mantenendo lo stile e la giusta lettura del punto vendita. Grazie alla modularità degli elementi, la composizione con basi a terra esalta al massimo l'ambiente di vendita.

In a store where space is at a premium, the challenge is having enough room to display the product, while still being true to the store's style and identity. The furniture's modular design allows the centrepiece with floorstanding base units to take the retail space to the next level.

Negozio Store

Nello store di grandi dimensioni la metratura va sfruttata al massimo, realizzando con cura e attenzione le scelte espositive. La serie di librerie a parete moltiplica lo spazio, esaltando al massimo il prodotto. Gli arredi aiutano a delimitare i corridoi di passaggio all'interno del punto vendita.

In a large store, floorspace needs to be exploited to the full, choosing display solutions with due care and attention. The run of wall-mounted bookcases multiplies the space, showing off the product to best effect. The furniture helps to direct customer flow through the store.

Luogo di incontro e di convivialità

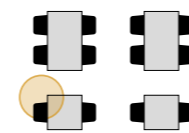

A place to gather and enjoy company

Un concentrato di stile dall'aroma ricco e profumato. Il bistrot diventa uno spazio d'incontro dai tratti leggeri, che accoglie il quotidiano delle persone, tra lavoro e tempo libero. Ma è soprattutto un progetto ottimizzato dove l'estetica incontra le esigenze commerciali.

A concentrate of style with a rich, enticing flavour. The bistro becomes a meeting space with a light and informal feel, accommodating the daily lives of people who come in on their lunch break or leisure time.

Above all, though, it is an optimized design fusing aesthetics and business requirements.
